BIOMATEMÁTICA

Dia 19 de Outubro (terça-feira), às 16h, na Sala B3-01

“Mathematical modelling and control of population systems”

Marat Rafikov

(Universidade Federal do ABC, Santo Andre, Sao Paulo)

Abstract:

The aim of this talk is to apply methods from optimal control theory, and from the theory of dynamical systems to the mathematical modelling of biological pest control and disease vector control.

Local:
COMPLEXO INTERDISCIPLINAR
Av. Prof. Gama Pinto, 2
