

17-24 April 2013-Lisbon-Portugal

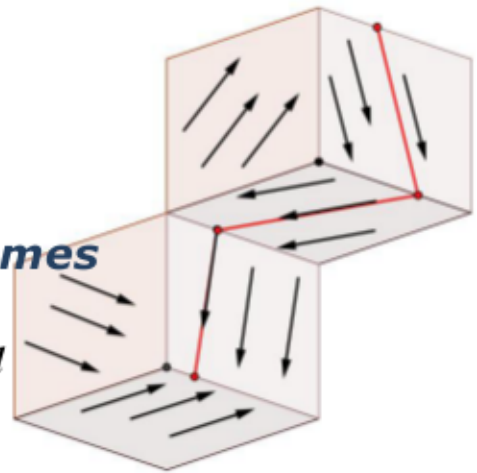

Topics in dynamical systems

Two short Spring courses at DMFCUL

- **Prime ends and planar dynamics**
by **Rafael Ortega**
Universidade de Granada - Spain

- **Theory of evolutionary games**
by **Pedro Miguel Duarte**
Universidade de Lisboa - Portugal

The courses will be held at Departamento de Matemática da Faculdade de Ciências da Universidade de Lisboa.

Each course will consist of six lectures of approximately one hour. There will be three lectures each week.

A more precise schedule will be available at the web page of the DMFCUL (<http://www.fc.ul.pt/pt/dm>) at the end of March. For further information, please contact:
