“The method of local predicativity”

(continuation of the GTQL seminar of June 17)

***Sergei Tupailo***

(CMAF)

**Abstract:**

I will continue introduction to Local Predicativity, based on Sections 1 and 2 of my 2000 paper. This Thursday, I have to finish Section 1 and Section 2.

A suggestion to the participants of the seminar, to make life more interesting, is to look, before the seminar, at the formulation of the infinitary system on p. 478, and the beginning of p. 479.
